Retest	0 (0%)	0 (0%)
Failed	2 (6%)	2 (6%)

Comparison & Coverage

R6 - Work Order

Copied Test Cases (33)

ID	Title	R6 - Work Order	Latest (Coverage)
C1004	(FE - Design) As a web application user I want to view the work order added successfully popup So that I can verify the workorder added successfully	Failed	Failed
C1023	(FE - Design) As a web application user I want to view filter work order popup So that I can filter the work orders I want	Passed	Passed
C1037	(FE - Design) As a web application user I want to view popup message asking for the pause So that I can confirm whether want to pause or not	Passed	Passed
C1039	(FE - Design) As a web application user I want to view delete task popup screen So that I can confirm whether I want to delete a task or not	Passed	Passed
C1040	(FE - Design) As a web application user I want to add task details when creating work order So that I can add tasks under work order	Passed	Passed
C1041	(FE - Design) As a web application user I want to add work order details when creating work order So that I can add basic details of a work order	Passed	Passed
C1042	(FE - Design) As a web application user I want to view pause work order popup screen So that I can add details regarding pausing work order	Passed	Passed

C1045	(FE - Design) As a web application user I want to view edit task popup screen So that I can confirm whether I want to edit or not	Passed	Passed
C1059	(FE - Design) As a web application user I want to preview the details I added for a work order before confirming the details So that I can make sure whether details are correct	Passed	Passed
C1060	(FE - Design) As a web application user I want to view individual task's more details in a table model So that I can check the tasks more details	Failed	Failed
C1082	(FE - Design) As a web application user I want to view an individual task details for a particular work order So that I can view each task details seperately	Passed	Passed
C1083	(FE - Design) As a web application user I want to view all task details in a table model related to the work order of the individual task So that I can have an idea about the work order related to that particular task	Passed	Passed
C1089	(FE - Integration) As a web application user I want to view task details popup in single order list So that I can view task details individually	Passed	Passed
C1090	(FE - Integration) As a web application user I want to enable pause work order button when selecting a work order using checkbox So that I can redirect to pause work order through the button	Passed	Passed
C1091	(FE - Integration) As a web application user I want to enable un-pause work order button when selecting a paused work order using checkbox So that I can un-pause work order through the button	Passed	Passed
C1094	(FE - Integration) As a web application user I want to add work order details when creating single order So that I can add initial details of single order(If already Work Order Created, it will contain details of Work Order in the precondition step)	Passed	Passed

C1130	(FE - Integration) As a web application user I want to view created single orders in a table So that I can view single order list separately	Passed	Passed
C1096	(FE - Integration) As a web application user I want to add work order details when creating single order So that I can add initial details of single order(First Time Work Order , it will not contain any details of Work Order in the precondition step)	Passed	Passed
C1099	(FE - Integration) As a web application user I want to create tasks when creating single order So that I can create multiple tasks of single order	Passed	Passed
C1100	(FE - Integration) As a web application user I want to add task details in a table when creating single order So that I can view all the tasks of single order	Passed	Passed
C1101	(FE - Integration) As a web application user I want to view work order confirm details when creating single order So that I can verify details before submitting single order	Passed	Passed
C1102	(FE - Integration) As a web application user I want to view task details in a table in the confirm details when creating single order So that I can view all tasks of the single order	Passed	Passed
C1124	(FE - Integration) As a web application user I want to edit task details when creating single order So that I can update the created tasks	Passed	Passed
C1103	(FE - Integration) As a web application user I want to delete task details when creating single order So that I can delete the created tasks	Passed	Passed
C1104	(FE - Integration) As a web application user I want to copy task details when creating single order So that I can duplicate the created tasks	Passed	Passed
C1105	(FE - Integration) As a web application user I want to view success message after creating single order So that I can verify that is created tasks	Passed	Passed

C1107	(FE - Integration) As a web application user I want to edit single work order details So that I can update task details of the single order	Passed	Passed
C1108	(FE - Design) As a web application user I want to edit single work order So that I can update any specific details in single order	Passed	Passed
C1109	(FE - Design) As a web application user I want to edit recurring work order So that I can update any specific details in recurring order	Passed	Passed
C1111	Functional Testing - Work Order - Recurring Order List	Passed	Passed
C1118	(FE - Design) As a web application user I want to view the overview table of the single work orders So that I can view the list of single work orders created	Passed	Passed
C1119	(FE - Design) As a web application user I want to view the overview table of the recurring work orders So that I can view the list of recurring work orders created	Passed	Passed
C1122	(FE - Design) As a web application user I want to view task details table So that I can view all the tasks added for a particular work order	Passed	Passed
